Subject: Your side of the story

Render,

As I have sought wise council from Godly men there is general agreement that I must pursue my situation further using formal means. However I have been overwhelmed with verses espousing “*wait on the Lord.*” Subsequent to my car fire last week and the realization that that was the second time in two months where the real possibility of my death was at hand, I have found a renewed joy in the Lord. I have laughed and smiled for the first time in seven weeks. I became very content to wait on the Lord.

However, I heard that you called another family requiring them in essence not to argue from scripture and not to communicate with me or the session will get involved. The analogy to a Papal Bull seems striking. I respectfully request that you clarify this as I would not want to misrepresent you as I pursue this further.

I understand that you will be making some type of proclamation from the pulpit this Sunday evening in regard to our family situation. I will be patient until then but if history is a guide I will only find out about this through other sources.

Be assured that my love for my wife and children is as strong as ever, and I am pursuing a restored family.

I request a written response via email as I currently do not have a stable mailing address and I would like to avoid the differing memories that we could have in a phone call.

Respectfully,

John Kozlowski
