Subject: A photo arrived!

Leo,

I just returned from a hike and found your photo in the mailbox. Thanks for sending that as it brings me great joy.

From the photo below, while I have my hand over my face and was only 4, plus it was in the days of black and white, I think you can tell that we might be related.

In some of the videos I do you can see on the wall to the left behind me both the older photo of you and the cookie that was a gift. You will see in future videos that there are now two photos side-by-side.

Calling you my grandson is an honor to me.

May the Lord bless you, your mom (whom I'm especially fond of), and your dad.

With love from the granddad.
