Family,

To my joy I received a photo of my grandson Leo. Let's say it is obvious that we are related.

I looked for a picture of me to send in my thanks email, and found the one below. To my kids, here is evidence that your dad was also once a four-year-old. You can see my mom's legs, and very important, my wagon! Yes, I had a real "Radio Flyer". Be jealous. Be very jealous! This is when we lived in the state of Washington.

While looking for the photo I *just happen* to find a couple images from 1989 and they are attached. I then did a video for my family so you would have a bit more knowledge of my souvenirs as I describe them. Most notable among them is the bunny that you can see in the attached letter. I still have it. I would rather have the lady that gave me the bunny and wrote the letter.

The video is online as linked below.

I love you all!
