Subject: Post call to the state

Dorothy-Jane,

It was a reminder again why the Lord commanded the follower of Christ to resolve things directly rather than turning to the state, as seen in 1Co6. The state is callous, as all institutions inherently are. They must justify their existence rather than work toward resolving issues. That is why I continue to attempt to reconcile with you and also am keeping you informed.

On the area of being informed, it does appear that you or I must provide documentation about Julia and George to the state to have the rates change. Again keeping 1Co6 in mind, I will not do this. You are the one who put the state into our lives and therefore I will leave it to you to have the amount adjusted or preferably have the state removed. You had the state take funds from me. You are now using the state to take more funds from me than the state law requires, which is theft. Do you recall Exodus 20:15?

What I was told is that I must make a lump sum payment of about \$2,600, rather than incremental ones, to avoid the court date. This is again one of those irrational things, such as cutting off one's nose to spite your face. Therefore, I will accumulate the payment I said I was going to make in order to make the lump sum amount by early October. The remarkable irony is that as I previously stated, I was going to make a \$333 payment per week to catch things up. Now I will simply accumulate that amount and that will be about \$2,600 in early October. So nothing is gained, just fiasco is caused and **funds are further delayed to you**. All hail the power of the state's name! It reminds me again of Proverbs 1984.

But the fiasco is minor compared to the broken heart I still have. It is only you that can cure that. I will remind you again that the Lord demands it, and I ask for it. I remain wholeheartedly in love with you and hold nothing against you. Please consider me, the man you promised all your days to, and know I am here for you

Dorothy-Jane, I love you very much!
