Family,

The world events of today and the importance of reconciliation seem all the more vivid when you open your eyes to them. As described in the video I heard a line that I thought was a great description of what we are living today, "9/11 in slow motion". 9/11, like the virus of today, is simply a distraction being used by multiple parties to steal, destroy, increase control, or some combination.

The obvious example that does not require much thought is the current stimulus package passed by the US Congress gives about a half trillion dollars to the masses, but one and a half trillion to institutions. So individuals are gleeful of the money being handed to them, but are not aware that while they are reaching out for the check, their pocket is being picked. Stealing two trillion dollars might have an impact. Do you think that is true?

The issue of who pays for this is simple, our kids. Another way to say this is we are sacrificing our children to Molech. You remember Molech, based on mâlak, or archon, or the state, or in our day the US Government. Are you singing the refrain "praise Molech from whom all blessings flow"? Perhaps not singing, but living?

The video has a bunch of history, as I have become far more of a student of the subject, and applies it to today. Please consider if what I say is true by validating it, rather than simply scoffing at it. Consider if Proverbs 9:9 might apply to you? (*"Give instruction to a wise man, and he will be still wiser; teach a righteous man, and he will increase in learning."*)

The reconciliation offer is still available to all. Any partakers should know how to contact me. That probably doesn't include George, because he states he wants a reconciled family but probably doesn't know any of my attempt to do so. The question of who is showing love comes to mind. And then what is a good word to define the isolation and silence from those refusing the offer of grace?

Please tell my wife I love her!
