Subject: Mr. Cross - Assange and me

Mr. Cross,

Years ago you stated that I should distance myself from Julian Assange and WikiLeaks.

Project Veritas released an audio recording from 2011 of Julian Assange attempting to warn the US of an upcoming massive leak of State Department documents. As many have noted, others released the documents before WikiLeaks. Several things should be seen about Assange and me.

While many don't like what Assange exposed, there has not been a single case of anyone showing that what he exposed was false. Rather what he exposed caused embarrassment to many and they rally together to condemn Assange and he is persecuted.

Over the years I have pointed out the fraud in the software industry. It caused me to be disfavored and many rallied together to remove me. The same has been happening with the institutional church.

While Assange is not a follower of Christ, he is a human being created in the image of God and the father of two. He has been denied access to his kids for years.

While I am a follower of Christ, also a human being created in the image of God, and the father of nine. I have been denied physical access to my kids for 8 years and phone access for 4 years.

Assange, unlike what his critics say, attempted to warn the US Government about issues before they could cause problems for the government.

Unlike what my critics say, I have pointed out the importance of full obedience to Christ to those who claim Christ to encourage them to live a life such that it doesn't end with hearing "*I never knew you*" (Mat 7:23).

After years of isolation in the Ecuadorian Embassy in London, and now 23 hours a day in a prison cell while not convicted of a crime, Assange has maintained a stamina to continue.

After year of isolation from my family, I have maintained a stamina to continue. The ability to walk a marathon a week has been the Lord's grace to me.

While the analogies are strong, plus my effort in 2012 of ShofarLeaks, there is perhaps one even closer, Fritz Erbe. He is the one who spent 16 years in prison on behalf of the Protestant Church during the time of Luther. He is the one who

spent 7 years isolated in the castle tower where Luther translated the Bible into German. He died in the hole alone. What does my future hold?

A short version of the recording: **Veritas Obtains Recording Of Call Between Wikileaks Julian Assange & Lawyer In Clinton's State Dept**
