Subject: Tech, not government, is our new ruler | Dominic Frisby

Mr. Cross,

While enjoying breakfast I watched “**Tech, not government, is our new ruler | Dominic Frisby**” (https://www.youtube.com/watch?v=tFYkB6xXV_Q).

It reminded me of you as you have a demonstrated trust in the government. If you can watch this 18 minute video and still feel good about your government or think I should be working for “big tech”, then you are more than misinformed.

As stated for weeks, I wonder if you have already been hit by the Great Reset.

You may turn a cold heart to me, but if you ever want to reach out, as long as I have breath I will be available to you.

Respectfully,

John Kozlowski
